

PHOENIX DATA CENTER

120 E VAN BUREN ST.
PHOENIX, ARIZONA 85004

SCHEDULE A TOUR →

The Phoenix data center is move-in-ready and scalable from a single rack to a dedicated secure cage. Our colocation and hybrid IT solutions deliver 100% uptime and impenetrable security to help you avoid the costs and stressors of expanding in-house infrastructure or building one from the ground up. We are committed to your colocation requirements and innovating your IT journey.

ADVANCED NETWORK

Our network provides a modern, flexible, and scalable infrastructure spanning multiple data centers nationwide. Built with the latest Cisco Technology, the LightEdge network provides automatic failover capabilities and built-in redundancy, ensuring applications and services always remain available. Together, our networking experts and core technology can quickly adapt to changing business needs and requirements.

FLEXIBLE PRIVATE BACKBONE

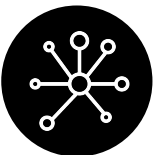

- ▲ Architected a robust, reliable, and secure private MPLS backbone between all facilities
- ▲ Multiple paths in/out of each geography with diverse paths to mitigate the risk associated with the carrier hotels
- ▲ Provide multiple service types including Layer 2 and Layer 3 services providing more control and flexibility for your DR needs

ALWAYS ON BLENDED INTERNET

- ▲ We blend 10+ carriers nationwide over a redundant MPLS backbone
- ▲ Peer with multiple internet exchange partners to reduce network hops, latency, and congestion

EDGE NETWORKING

- ▲ Integrates with multiple network service providers to provide dedicated, private, and secure access to public cloud providers and SaaS services
- ▲ Our robust ecosystem of partners can reduce the complexity involved with multi-cloud and edge networking. This includes remote office and wide area network connections

DATA CENTER LOCATIONS

- ▲ Kansas City, Missouri
- ▲ Lenexa, Kansas
- ▲ Des Moines, Iowa
- ▲ Omaha, Nebraska
- ▲ Austin, Texas
- ▲ Phoenix, Arizona
- ▲ San Diego, California
- ▲ Minneapolis, Minnesota
