Austin, TX 78741

The Austin data centers are move-in-ready and scalable from a single rack to a dedicated secure cage. Our colocation and hybrid IT solutions deliver 100% uptime and impenetrable security to help you avoid the costs and stressors of expanding in-house infrastructure or building one from the ground up. We are committed to your colocation requirements and innovating your IT journey.

Specifications

- NIST 800-171

Network Carriers

- AT&T
- Cogent Communications
- Crown Castle/FPL
- Fiberlight
- Grande
- Lumen
- Logix
- Spectrum
- Zayo

Advanced Network

Our network provides a modern, flexible, and scalable infrastructure spanning multiple data centers nationwide. Built with the latest Cisco Technology, the LightEdge network provides automatic failover capabilities and built-in redundancy, ensuring applications and services always remain available. Together, our networking experts and core technology can quickly adapt to changing business needs and requirements.

Flexible Private Backbone

- Architected a robust, reliable, and secure private MPLS backbone between all facilities
- Multiple paths in/out of each geography with diverse paths to mitigate the risk associated with the carrier hotels
- Provide multiple service types including Layer 2 and Layer 3 services providing more control and flexibility for your DR needs

Always on Blended Internet

- We blend 10+ carriers nationwide over a redundant MPLS backbone
- Peer with multiple internet exchange partners to reduce network hops, latency, and congestion

Edge Networking

- Integrates with multiple network service providers to provide dedicated, private, and secure access to public cloud providers and SaaS services
- Our robust ecosystem of partners can reduce the complexity involved with mutlicloud and edge networking. This includes remote office and wide area network connections
