

Kansas City, MO Data Center

Schedule a tour

 9050 NE Underground Dr. Pillar
312, Kansas City, MO 64161

The Kansas City data center is move-in-ready and scalable from a single rack to a dedicated secure cage. Our colocation and hybrid IT solutions deliver 100% uptime and impenetrable security to help you avoid the costs and stressors of expanding in-house infrastructure or building one from the ground up. We are committed to your colocation requirements and innovating your IT journey.

Specifications

2.7 MW

Critical IT Workload

4.5 MW

Total Generator Capacity

3/2 Redundant

UPS configuration

12

On-Net Carriers

72,393 Square Feet

Data Center

34,820 Square Feet

Whitespace

- AT&T
- Bluebird Network
- Cogent
- Consolidated
- Communications
- Kansas Fiber Network
- Lumen
- Spectrum
- Unite Private Networks
- Windstream
- Win Technology
- Zayo
- Kansas City Internet Exchange

Advanced Network

Our network provides a modern, flexible, and scalable infrastructure spanning multiple data centers nationwide. Built with the latest Cisco Technology, the LightEdge network provides automatic failover capabilities and built-in redundancy, ensuring applications and services always remain available. Together, our networking experts and core technology can quickly adapt to changing business needs and requirements.

Flexible Private Backbone

- Architected a robust, reliable, and secure private MPLS backbone between all facilities
- Multiple paths in/out of each geography with diverse paths to mitigate the risk associated with the carrier hotels
- Provide multiple service types including Layer 2 and Layer 3 services providing more control and flexibility for your DR needs

Always on Blended Internet

- We blend 10+ carriers nationwide over a redundant MPLS backbone
- Peer with multiple internet exchange partners to reduce network hops, latency, and congestion

Edge Networking

- Integrates with multiple network service providers to provide dedicated, private, and secure access to public cloud providers and SaaS services
- Our robust ecosystem of partners can reduce the complexity involved with mutlicloud and edge networking. This includes remote office and wide area network connections
