

North Dallas (Lewisville), TX Data Center

[Schedule a tour](#)

 2501 S. State Highway 121, Business Suite 500
Lewisville, TX 75067

Strategically located just 10 minutes from Dallas–Fort Worth International Airport (DFW), our Dallas facility is part of one of the most secure data center campuses in the country. Protected by military–style security and 2–N redundancy on all critical systems, we ensure your data is both safe and accessible at all times. In addition to its location outside of major natural disaster zones, this facility provides 22 MW of power and an on-site power substation.

Specifications

26.5 MW

Critical IT Capacity

20 Gbps

Connectivity to Every Rack

25 MVA

Transformers

110,000

Colocation Square Feet

MGE 8000 625 kVA

UPS Systems

2,552

Whitespace Square Feet

2.25 MW

Generators

Tier 4

Data Center Facility

- HIPAA/HITECH
- PCI DSS
- HITRUST
- SSAW 18 SOC 1 & SOC 2
- FISMA–Moderate
- ISO/IEC 27001
- FERPA
- Canada Bill 198
- Tier 4 Data Center

Network Carriers

- AT&T
- Comcast
- Phonoscope
- Fiberlight
- Time Warner Telecom
- Verizon
- Zayo

Advanced Network

Our network provides a modern, flexible, and scalable infrastructure spanning multiple data centers nationwide. Built with the latest Cisco Technology, the Lightedge network provides automatic failover capabilities and built-in redundancy, ensuring applications and services always remain available. Together, our networking experts and core technology can quickly adapt to changing business needs and requirements.

Flexible Private Backbone

- Architected a robust, reliable, and secure private MPLS backbone between all facilities
- Multiple paths in/out of each geography with diverse paths to mitigate the risk associated with the carrier hotels
- Provide multiple service types including Layer 2 and Layer 3 services providing more control and flexibility for your DR needs

Always on Blended Internet

- We blend 10+ carriers nationwide over a redundant MPLS backbone
- Peer with multiple internet exchange partners to reduce network hops, latency, and congestion

Edge Networking

- Integrates with multiple network service providers to provide dedicated, private, and secure access to public cloud providers and SaaS services
- Our robust ecosystem of partners can reduce the complexity involved with mutlicloud and edge networking. This includes remote office and wide area network connections
