Critical IT Workload

**47+**

Network Operators

**4,000 kVA (N+1)**

UPS Systems

**10,000 kW, 3,000 kW (N+1)**

Backup Generator Power

**Diverse Feeds at 13,800v**

Utility Feeds

**20,000 kW**

Utility Power

**442,837 Square Feet**

Data Center

**2,700 Square Feet**

Whitespace

## Connectivity

- Premier core interconnection site in St. Louis
- Direct interconnection available to 900 Walnut data center
- Carrier-neutral, building-owned and managed Meet Me Room
- Network operators: 47+
- Points of Entry (POE): 2 diverse
- Risers: pre-built innerduct system from POEs to Meet Me Room
- Colocation: cabinets and cages available

## Security

- Key card access throughout entire facility
- Video surveillance
- 24x7 access to authorized customer personnel (via access lists)
- MMR access: two-factor authentication

## Advanced Network

Our network provides a modern, flexible, and scalable infrastructure spanning multiple data centers nationwide. Built with the latest Cisco Technology, the Lightedge network provides automatic failover capabilities and built-in redundancy, ensuring applications and services always remain available. Together, our networking experts and core technology can quickly adapt to changing business needs and requirements.

## Flexible Private Backbone

- Architected a robust, reliable, and secure private MPLS backbone between all facilities
- Multiple paths in/out of each geography with diverse paths to mitigate the risk associated with the carrier hotels
- Provide multiple service types including Layer 2 and Layer 3 services providing more control and flexibility for your DR needs

## Always on Blended Internet

- We blend 10+ carriers nationwide over a redundant MPLS backbone
- Peer with multiple internet exchange partners to reduce network hops, latency, and congestion

## Edge Networking

- Integrates with multiple network service providers to provide dedicated, private, and secure access to public cloud providers and SaaS services
- Our robust ecosystem of partners can reduce the complexity involved with mutlicloud and edge networking. This includes remote office and wide area network connections
